

# YO !

As the holiday season wraps up and the New Year peeks around the corner ,  
it 's time for your homie , Snoop on the Stoop , to roll out .

But before I bounce , let 's rewind and remember how we kicked things off :

'Twas the nizzle before Christmizzle , when all through the hizzle ,  
Not a creature was stirring , not even a mizzle .  
The lights were all twinkling , the vibes were just right ,  
And together , we grooved through each festive night .

Fo shizzle , my nizzle , we 've had some real fun ,  
With holiday cheer , our spirits as one .  
From chillin ' by the tree to those late -night snack runs ,  
We kept it real cool under the holiday sun .

Now , as I pack up my gear and get ready to stray ,  
I remember the laughs , "Bow wow wow , yippie yo , yippie yay ." .  
We 've made memories that 'll last long after I depart ,  
You 've got a piece of my heart ; you know you 're sharp .

So as I say goodbye , and to the North Pole I return ,  
Keep the holiday spirit alive ; let that joyous flame burn .  
Remember the good times , the laughs , and the play ,  
Keep your head high and your worries at bay .

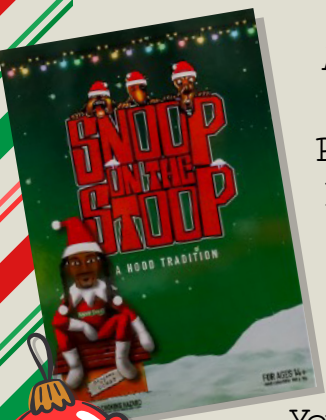

I 'll miss our time together , but don 't you feel blue ,  
Next holiday season , I 'll be thinking of you .  
So , until we meet again , keep spreading that cheer ,  
And remember , Snoop on the Stoop will always be near .

Peace , love , and holiday blessings to you and your crew ,  
Fo shizzle , my nizzle , Snoop on the Stoop , saying adieu .

Happy New Year , and may it be bright ,  
With love from Snoop , now signing off for the night !

Stay cool , stay kind , and always stay true ,  
Your friend , Snoop on the Stoop , saying , "Peace out to you !"
